

Holy Family Primary School First Aid Policy

Holy Family Primary School is a school which operates with the consent of the Catholic Archbishop of Melbourne and is owned, operated and governed by Melbourne Archdiocese Catholic Schools Ltd (MACS).

Purpose

This policy is aligned with the First Aid Policy for MACS schools. The policy sets out the actions and resources required in Holy Family Primary School to ensure adequate first aid provision for students, staff and others in the school environment and when engaged in school approved activities.

Scope

This policy applies to students, staff, families and others at Holy Family Primary School.

Principles

The following principles underpin this policy:

- our school has a responsibility to ensure a safe working and learning for all members of school communities
- the principal and all staff have a duty of care to all students and the provision of adequate facilities and resources supports this in the school.

Policy

Holy Family Primary School is responsible for providing first aid assistance to students in the event of illness or a medical emergency.

First aid facilities

The principal ensures that first aid facilities are in place to meet the needs of staff, students and others in school environments and for school approved activities, including for off-site activities such as camps and excursions, and out of hours school events. The area has appropriate signage and is readily identified as the First Aid Room. In this area facilities are supervised during recess & lunch breaks by the rostered first aid staff. A first aid risk assessment is undertaken by the school annually, and prior to camps and excursions.

Sufficient staff must be trained under the provisions of the *Occupational Health and Safety Act 2004* (Vic.) to ensure adequate provision of first aid, based on the number of students in the school or engaged in the activities, the activities being undertaken and the school environment.

First aid kits

- First aid back packs are available in each learning area. Teachers are supplied with a first aid yard duty bag. There is a designated first aid room with a supply for first aid supplies. A defibrillator is stored in the first aid room.
- The compliance officer manages the maintenance of first aid room supplies. Teaching staff are responsible for replacing first aid supplies in their first aid back packs and yard duty bags.

- Teachers on yard duty carry a waist bag containing basic first aid requirements to administer for minor injuries and also carries first aid response cards.
- Teachers on camps and excursions are provided first aid back and provision for student medication. A designated teacher is responsible for medication on school camps. Student medical emergency information & contacts are available through the Operoo app=

First aid staff and training

First aid officers provide initial care to injured students, staff or others in accordance with their level of training. They are not required to diagnose conditions or provide ongoing medical assistance.

The principal or their delegate will ensure that designated first aid officers and general staff have completed the recognised training. A first aid officer with current first aid qualifications must always be available to respond and assist an ill or injured person.

Where appropriate, a first aid officer will refer the ill or injured person to additional medical advice or assistance.

Additional staff with relevant training must be available depending on the student population, proximity to medical facilities, and the nature of activities being undertaken.

Training for anaphylaxis management is undertaken by all staff in the school.

A register of all first aid training is kept in the school by the Compliance Officer

- All staff at Holy Family School are required to update their first aid training every three years. The school provides this training through a registered first aid training provider.
- Staff are trained to a level 2 first aid certificate and with up-to-date CPR qualifications
- CPR training takes place for staff annually
- Staff are trained in asthma, diabetes and anaphylaxis.

Administration of First Aid

School staff are responsible for providing first aid assistance to students in the event of illness or a medical emergency.

Our school staff who have been trained will administer first aid in accordance with their training. Trained staff can provide basic first aid with [DRSABCD](#).

In a medical emergency, staff take emergency action and do not need to obtain parent/carer consent to do so. Staff contact Triple Zero “000” for emergency medical services at any time.

On each occasion where first aid is administered to a student with a minor injury or condition, our school staff will notify parents/guardians/carers by contact details available at school. On each occasion where first aid is administered for a serious injury or condition, or in an emergency, school staff will attempt to contact parents/carers or emergency contacts as soon as reasonably practical.

School staff are to determine whether students presenting with infectious illnesses and their contacts require an [exclusion](#) period from school and abide by any minimum period in accordance with Department of Health.

Administration of First Aid for head injury

For students who have an impact to the head, suspected concussion, or observed concussion, our school staff can use [Concussion Recognition Tool 5](#) to help identify a suspected concussion.

If a student demonstrates symptoms of a [moderate to severe head injury](#) (neck pain or tenderness, double vision, weakness or tingling/burning in arms or legs, severe or increasing headache, seizure

or convulsion, loss of consciousness, deteriorating conscious state, vomiting, increasingly restless, agitated or combative), the school is to call an ambulance immediately. If the [Concussion Recognition Tool 5](#) is used, the school must contact the parent/guardian/carer about the injury, even if the symptoms resolve. In the event of a suspected concussion, the parent/guardian/carer is asked to collect the student and have a medical assessment.

If a student has been diagnosed with a concussion/mild head injury, our schools will act on medical advice where this is provided to support a return to school and associated activities including participation in sport.

Communication with parents /guardians / carers

The school requires parents provide up-to-date and accurate medical information relating to students, including information about conditions such as anaphylaxis, asthma and diabetes. Parents are requested to provide this information annually, prior to camps and excursions and if the child's medical condition changes since the information was provided.

Records of incidents, injuries and first aid treatment are documented. First aid records are retained within the school and in line with MACS policies for information recordkeeping, retention and disposal.

An incident report will be completed when first aid is administered. This report will be kept in the school and a copy provided for the parent / guardian / carer of the student.

Parents / guardians / carers are notified as soon as possible if required to collect an ill or injured student from the school. When a parent / guardian / carer cannot be contacted, the principal will contact the emergency contact nominated by the parent / guardian / carer.

- Information about the school's policies and procedures for first aid, distribution of medication and management of students with medical conditions will be provided to parents / guardians / carers. Updates to these policies and procedures will be provided through the school website, newsletters and online platforms.
- The school requests that parents provide up-to-date and accurate medical information relating to students. Parents / guardians / carers are requested to provide this information annually, prior to camps and excursions and if their child's medical information changes.
- Parents / guardians / carers are notified by the school when first aid is administered by a first aid form. A record is also kept by the school. Parents / guardians / carers are notified of any head injuries by a phone call & also a first aid form. If a child becomes ill during the school day parents / guardians / carers are contacted to collect the child.

This policy and other school policies and procedures for the distribution of medication and management of students with medical conditions are publicly available/ published on the school's website

Definitions

First aid

The emergency treatment provided to employees, students and others who suffer injury or illness while at work/school, using the facilities or materials available at the time. In the case of severe injury or illness, members of staff are not required to diagnose or treat the condition apart from carrying out the appropriate first aid procedures. Diagnosis and treatment are the responsibility of the ambulance officer or medical practitioners.

First aid officers

Staff members who have been trained in first aid and are designated to provide initial care of ill or injured staff, students or others.
